MEMORANDUM FOR: Assistant Director for Personnel
SUBJECT : Personnel Ceilings
REFERENCE : Memorandum dated 5 August 1953 from Acting
Deputy Director (Administration) to Assistant
Director for Communications

1. The Office of Communications personnel ceiling established by the reference memorandum does not include the following Communications personnel on duty as of 31 July 1953:

25X1A6a

These personnel are presently being reported under the Deputy Director (Plans) ceiling.

2. During Fiscal Year 1953 and prior years the Office of Communications was charged with the cost for the salaries, travel, and transportation of household effects of the Communications personnel assigned to the above missions. Provision for funds to cover these costs for the personnel involved has been made in the Office of Communications Fiscal Year 1954 and 1955 Budget Estimates, and has not been included in the estimates of the Foreign Divisions of Deputy Director (Plans).

3. In view of the fact that the Communications personnel detailed to the above missions are included on the Office of Communications payroll and are rotated, promoted, and assigned by the Office of Communications Career Service Board, it would appear correct and administratively advantageous to include them under the Office of Communications ceiling rather than the Deputy Director (Plans).

~~CONFIDENTIAL~~

~~SECRET~~

* It is my understanding, based on an explanation given to me by Mr. [REDACTED] Policy and Plans Staff, Office of Communications, that this action will increase the personnel ceiling of the Office of Communications by [REDACTED] positions, making the adjusted figure at [REDACTED]. It will also reduce the DD/P personnel ceiling of [REDACTED] positions, leaving a new DD/P personnel ceiling of [REDACTED]. (The Personnel Director should verify this understanding with the COA/DDP.)
